

Manaswi Suraskar

Software Development Engineer | Java | React.js | Node.js

manaswisuraskar10@gmail.com | +91-9545863348 | GitHub | LinkedIn | Portfolio

Professional Summary

Computer Science undergraduate at VIT Bhopal with an 8.22 CGPA and hands-on experience developing responsive web applications and full-stack software solutions. Skilled in Java, JavaScript, React.js, Node.js, REST API integration, and database management. Experienced in building reusable UI components, implementing authentication and application workflows, and collaborating through version control. Interested in software engineering, backend development, problem-solving, and building reliable user-focused applications.

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, Python, SQL

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, REST APIs, Authentication, API Integration

Databases: MongoDB, SQL, Database Operations

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Developer Tools: Git, GitHub, Linux, VS Code

Experience

Frontend Developer Intern

May 2026 – Aug 2026

ParshWebCraft

- Developed responsive web interfaces using React.js, HTML5, CSS3, and Tailwind CSS to support application requirements.
- Built reusable React components and integrated REST APIs to display dynamic data and support interactive user workflows.
- Implemented frontend data handling, form validation, and error-handling scenarios to improve application usability.
- Used Git and GitHub for version control and collaborated with the development team on assigned implementation tasks.

Projects

Ticket Booking System

Live Demo | GitHub

React.js, TypeScript, Node.js, Express.js

- Developed a full-stack ticket booking application with event listings, user authentication, and booking workflows.
- Implemented REST API workflows for users, events, and bookings, with role-based access control for different users.
- Integrated QR-based ticket confirmation and database operations to support the event booking process.

TrueSight – AI-Powered Threat Detection Platform

Live Demo

React.js, TypeScript, REST APIs, AI Integration

- Developed a web platform for analyzing emails, audio, and documents to identify potential cybersecurity threats.
- Integrated REST APIs, AI models, and IP geolocation services into responsive interfaces for threat analysis.
- Implemented interactive dashboards, input validation, and API fallback handling to improve usability and reliability.

Achievements

- Top 35 National Finalist** – CyberShield Hackathon, recognizing the development of a cybersecurity solution.
- Patent Recognition** – Multipurpose Floor Chair, recognized through the VIT Bhopal IPR Cell.

Leadership & Activities

Team Lead, Notion Community, VIT Bhopal

Jul 2025 – Present

Core Member, Notion Community, VIT Bhopal

Jan 2024 – Present

Volunteer, NSS Unit, VIT Bhopal

Aug 2024 – Present

Certifications

Microsoft Certified: Security, Compliance, and Identity Fundamentals

Google IT Support Professional Certificate | MERN Full Stack Developer Certification
